#### 8:40 **Evelin Lindner – Human Dignity**

Dr Evelin Lindner is the founding president of the [Human Dignity and Humiliation Studies Network](#), which aims to end violence and advance human dignity on all levels – from the personal to the political. She tells Chris that all of humanity is one family on a tiny planet, and we need to co-operate with each other.

#### 9:06 **Mediawatch**

Mediawatch tracks down an intrepid New Zealand journalist who hit the headlines recently when he was beaten up in Egypt's uprising – and later locked up in Yemen. Is he still committed to covering the world's most risky regions? Mediawatch also looks at whether your TV could really be killing you, as some headlines would have you believe; and two stories which hit the front page, but only because sex and celebrity status were part of the mix.

Produced and presented by Colin Peacock and Jeremy Rose.

#### 9:40 **Derek Hansen – Small Town Stories**

Australian author Derek Hansen talks to Chris about how his experiences with thieves, murderers and small town oddballs helped shape his latest book.

A Man You Can Bank On, by Derek Hansen, is published by Hachette.

#### 10:06 **Ian Boisvert – Marine Rights**

Ian Boisvert, a renewable energy attorney from San Francisco, has been based at the Energy Efficiency and Conservation Authority (EECA), researching policy for the management of NZ's ocean renewable energy resources – wave power, tidal currents and offshore wind. He's advocating a new system he calls Tradable Occupation Rights for all users of the marine environment, to reduce conflict and allow New Zealand to more easily realise its offshore energy potential.

Ian Boisvert is one of four 2011 Ian Axford (New Zealand) Fellows in Public Policy. Their reports can be downloaded from the [Fulbright New Zealand website](#)
