Title: THE GLOBAL IMPACT OF HUMILIATION ON RELATIONSHIPS AND WORLD PEACE

75- Word Summary: By examining the cycling from connections to disconnections evoked by acts of humiliation on women, we can better understand the fallout resulting in violent self/other destruction. Through this understanding, we can work as social justice advocates whose goals are to eradicate the use of humiliation on interpersonal and international levels. Through joining in on a moratorium on humiliation, and eliminating or at the very least reducing the violence in the world, we can work together to create peace.
