

Building Human Dignity through Solidarity

Presentation

3 principles to be verified

- Each society can be governed by positive or negative values
- The level of personal and collective development or the levels of consciousness matter
- You cannot solve a problem using the thinking that contributed to create the problem

The values we are talking about

Positive values

- Solidarity
- Compassion
- Humility
- Intelligence
- Unconditional love
- Dignifying communication
- Respect

Negative values

- Greed
- Unconsciousness
- Egoism
- Abuse of people and our Planet resources

Principle 1:Case Rwanda

- **Positive values**

- Every one needs everyone
- Unity in diversity
- Complementarity
- Ethical values

- **Results**

- High level of solidarity leads to human dignity
- Know what is right and what is wrong
- Peace and harmony

- **Negative values**

- Winners/Losers
- Superiors humiliate the inferiors
- The dominated work for the dominators
- Laws without ethics

- **Results**

- Lost the meaning of what is right and what is wrong
- Low level of solidarity
- Genocide and denial of humanity

Principle 2 : Societal Choices

Negative values/low level of consciousness

- Few winners and many losers
- Waste of resources in competition to dominate
- Make people become robots or puppets
- Building a humiliating society
- Disasters in perspective

Positive values/High levels of consciousness

- Win/win situation
- High level of solidarity
- Optimization of the use of resources protecting the Planet
- Building a dignifying society for all
- Improve quality of living

Principle 3 : Change Logics

- We cannot build a negative values society and hope to achieve positive results
- Building a solidarity based society requires making a fundamental change, growing in consciousness and recognizing who we are and what e have in common
- Otherwise, more disasters in perspective

What do we do to build human dignity through solidarity

- Continue to be the prophets and the whistleblowers , invite people to change the logics that have failed so far
- Laurien wanted to tell you about his project of Peace in Africa based on the principles we highlighted here
- Father Jean d'Amour has a good project of making Felicite, an example of supreme solidarity with the victims of humiliation

Thank you
