**Areas of Interest/Research:  
HEALTH CARE**

**Out of this gathering, I'd like to get more knowledge and shared experience all about how to care human beings by considering their values and dignity.**

**My contribution is focused toward medical knowledge that can increase people's awareness on human dignity conducive and contributing to a constructive research**

**For me dignity means autonomy, value and respect that is eah and every human being should have and be allocated all over the world**

**Thank  
You!**
