## Let's see the world positively: A Plea

We should learn to see the world positively  
A positive worldview let's prioritize globally.

Let's see people and institutions through positively critical lenses  
Positivity should characterize the uses of all of our senses.

Learning how to communicate constructively  
calls for a vocabulary organized positively

Four types of **POSITIVIZERS** we should be able to enumerate:

With **LOVE**, the list of Noun-Positivizers  
we should start

With **TO LOVE**, the list of Verb-Positivizers  
we should continue

With **GOOD**, the list of Adjective-Positivizers  
we should compile

With **POSITIVELY**, the list of Adverb-Positivizers  
we should compose

Let's see the world positively:  
Accordingly, let's use our minds and hearts with positiveness

By (inter)acting globally and multilingually for solidarity  
May this poster help you nurture a much-needed quality:

**COMMUNICATIVE DIGNITY**
